Rules

Rules Concerning Husbandry.

WHen you would Plant or Graft, consider where the wind bloweth, if it be in the South, it is very good for that purpose, but if in the North or East it is not good.

It is good to Plant or Graft generally the Moon encreasing in these Signs, Taurus or Aquarius, in the begining of the Spring, or latter end of Harvest.

Plant Trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut Timber to have it Sound, in *December*, or *January*, in the wane of the Moon in Aquarius or Pisces.

Prune Trees, and pull off the Moss in the Month of *Febrnary*.

Plash Hedges, and Lop trees for Fewel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quicksets from *September* to *March*.

Remove young Trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio, and in these Months, *September*, *November*, *February*.

Set Vines in *February*, *March*, or *September*, especially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-Trees in the midst of *February*, the Moon increasing.

Cut or Prune Trees in *March* or *April*, the Moon in Taurus, Virgo, or Capricorn.

Gather Fruit, as Apples, Pears, and the like, at the full Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of *February*, or the begining of *March*, the Moon increasing. Also sow Onions and Leeks in *February* or *March*, at the wane of the Moon.

Sow Cucumbers and Millions in *February* or *March*, or *June*, in a hot and fair day.

Sow Parſley, Fennel, and Anniſeed, in *February* or *March*, at the full of the Moon.

Sow Margerum, Violets, Time, Roſemary, and Lavender, in *February*, *March*, or *April*, in the increaſe of the Moon.

Sow Gilliflowers and Wall-flowers, in *March* or *April*, in the old of the Moon.

Sow Hyſop and Savory in *March*, when the Moon is old.

Sow double Marigolds in *February* or *March*, in the increaſe of the Moon.

Shear Sheep at the Increaſe of the Moon.

The beſt time to Geld Cattel the Moon being in Aries, Sagitarius, or Capricorn.

Of Blood-letting, and ſome other Phyſical Obſervations.

IN youth let Blood from the change to the firſt quarter: in middle-age, from the firſt quarter to the full: in elder years from the full to the laſt quarter: In old age, from the laſt quarter to the change. But know, that under the age of 14. and above the age of 56. it is not good to bleed at all.

Again, in the Canicular, or Dog-days, it is very hurtful to take any Phyſick at all, unleſs there be great need: and indeed neceſſity hath no law: Wherefore in ſuch a caſe, the diſeaſe being deſperate, the cure muſt be adventured.

Take a Purgation when the Moon is in Trine, or Sextile aſpect with Venus, decreaſing, in any of theſe three Signs, Cancer, Scorpio, or Piſces, and it will be ſure to work the better, becauſe when a moyſt Planet, in a moyſt Sign hath ſuch an aſpect, the humours in the body are then ſtirred up and flown, and ſo the better purged out; wherefore in this caſe, it cannot be amiſs to prepare humours by ſomething that is laxative: and let this be done whilſt the Moon is either in Gemini, Libra, or Aquarius.

Take a Vomit, that it may work throughly, when the Moon

is in Aries, Taurus, or Capricorn: and know that the aſpects of the Moon with Saturn, or Mars, or the Moon in Leo, ought to be eſchewed in the takeing of Medicines.

Finally, if neceſſity urge no haſte, theſe obſervations are expedient: for it is a plain truth, that the change of weather upon differing aſpects, doth greatly change and alter mens bodies.
